## FORMAL OPENING

Of Cerulean Took Place With Ball Last Night.

The opening ball at Cerulean Springs was given last night and the spacious hall was crowded with young people. Dancing was indulged in until a late hour and the affair proved the most brilliant event of the kind ever given at that popular watering place. A very large crowd of people from this city attended and a number of them will remain over Sunday.

Last night's event was the occasion of the formal opening of the Springs for the season, but a large number of guests had arrived early in the week and rooms are being rapidly taken, some for the season, others for a month or more and some for a week or ten days. E. Y. Pool & Co., the proprietors, are receiving many letters by every mail engaging quarters and the prospects are that every room will be taken before July 1. All indications point to a most successful season.

## SYSTEMIC CATARRH

And Grip Prostration Afflicts the People All Summer.

UNITED STATES MARSHAL SIMMONS.

Hon. F. Simmons, United States Marshal, Mobile, Alabama, speaks in high praise of the merits of Peruna. In a letter written from Washington, D. C., he says:

"After having used Peruna for a short time I find that it is the most excellent remedy for the grip and catarrh ever prepared. I can heartily recommend it to any one." Yours sincerely, F. Simmons.

Even a slight attack of la grippe deranged. Every function is disturbed. Appetite and digestion demoralized. Creeping rigors, hot flashes, cold sweats and fitful sleep linger to make life almost unbearable.

It is this condition that Dr. Hartman calls systemic catarrh. The whole system is saturated with catarrh. This discovery marked an important advance in the history of medical science. The medical profession had long been groping to discover the meaning of the stubborn and distressing after-effects of la grippe. All remedies seemed alike inadequate.

As soon as Dr. Hartman announced that it was his belief that the after-effects of la grippe was simply systemic catarrh, a great advance was made in the treatment of these cases. It now only remained to find a reliable remedy for systemic catarrh.

Here a new difficulty arose. Catarrh had been regarded by many physicians as a local disease and treated solely by local remedies. Such physicians knew of no systemic remedy for catarrh.

Other physicians regarded catarrh as a blood disease and had been in the habit of treating it with blood medicines, which could be of no possible use in systemic catarrh.

For a time Peruna enjoyed the distinction of being the only systemic catarrh remedy known. It was not even claimed by anyone that there was another remedy for this exasperating condition.

Since then, however, a great many remedies have been proposed for systemic catarrh, and a great deal of valuable time wasted in experimenting with other remedies. But it still remains true that Peruna is the only specific remedy for the after-effects of la grippe. The demand for this remedy, in consequence of the present epidemic of la grippe, is enormous.

Mr. J. P. Lowery, proprietor City Hotel Albany, Texas, says: "Being advised to try Peruna for la grippe and asthma, I did so with good results. I had been feeling very unwell for a long time, and had asthma quite bad till I came West, when I got better of the asthma, but was not well. I tried a great many remedies for it, but nothing was able to cure me."

"I took three bottles of Peruna and I am happy to say that it is the best medicine I ever used. I am satisfied that Peruna is a good medicine, and as such have commended it to several of my friends with good results. It is seldom I give a testimonial, but I think this due you. I hope others may be benefited through you and your medicines."

Every one should read Dr. Hartman's latest lecture on la grippe. This lecture will be sent free by The Peruna Medicine Company, Columbus, Ohio.

## Please Take Notice.

The Hopkinsville Steam Laundry a few months ago put in a very expensive mangle for ironing family flat work; doing sheets at two cents, counterpanes at ten cents and tablecloths at five cents to ten cents, and other work at correspondingly low prices, but on condition that we get the flat work each week and bundle work as well, we give these low prices, and it is so printed on lists. But of late agents for outside laundries (who quit working for us without notice) have gone to our customers, and under plea that they should be helped, in some instances induced customers to give them their collars, cuffs and shirts, and then send us their flat work. We wish to say to one and all that we want your trade, and desire to give as many people in Hopkinsville employment as possible, but we cannot do your flat work at the same price as if you had it and your bundle work every week, but will be glad to do flat work at an increase price which will be given you on application, should you desire to give your bundle work to outside laundries and the flat work to us. We treat all alike in this matter and don't want any one to think we are discriminating against them when we refuse to do flat work at a cost price and you give your bundle work to outside laundries, on which there is a little something made. If you cannot patronize a home company which has placed a plant in your midst—the equal of which is not found in the South—why divide your work, and give that which there is nothing in to a home laundry and send the work which there is something in, away? We want your trade and do all we possibly can to merit same, both by skilled labor and machinery, and if you wish to divide the work and give that to the agent there is something in, and that to us the agent can't handle, why we greatly prefer that you give it all to the agent. P. S.

When you send us only your flat work the price will be double that quoted above.

Samples free at any drug store.
